

Bionas Murabahah Bhd (BMB) is a special purpose development vehicle formed as a subsidiary of BATC Development Bhd to encourage participation in Jatropha Curcas planting efforts in Malaysia. Through an affordable and innovative development programme, BMB offers everyone the opportunity to participate in sustainable and commercial scale Jatropha planting in the country via the Islamic Murabahah (Sale & Purchase) concept of trade, compliant with Syariah principles, as approved by the Ministry of Domestic Trade, Malaysia (KPDN(DN)(JL)8/1). BATC Development Bhd has successfully developed Jatropha planting throughout Malaysia with an available plantation landbank of 3.3 million acres of plantable area that has been contracted with thousands of land owners, in particular in Sabah&Sarawak, for a period of 30 years for each contract.

The total land area allocated for Phase 1 of this Programme is 500,000 acres in Malaysia. Under the Programme, Participants are offered the opportunity to purchase Jatropha seedlings and plantation fertilizers from Bionas-registered nurseries, for RM 3,000 per 1 unit plot. The selling price to BATC will be RM 4,500 that will be paid to the participants in deferred payment concept plus a Hibah (Gift) of RM750 based on a 2+1 year designed tenancy and for 1 year grace period (6 month land clearance + 6 month first harvesting). By way of the Islamic Musyarakah (Joint Venture) concept, BATC will develop Jatropha plantations with contracted farmers in rural areas by offering job opportunities to poverty stricken groups that may include single mothers and handicapped. It is the Company's mission to contribute in enhancing the economy of rural communities with the objective poverty.
